GenAI-Powered Website Chatbot

Convert More Website Visitors. Zero License Fees. All Intelligence.

Meet your new AI sales representative — a fully autonomous, intelligent chatbot designed to engage website visitors, qualify leads in real time, and drive conversions — all without the need for costly subscriptions or licenses.

Why Choose This Chatbot?

Lead Capture & Qualification – In Real Time

Operates 24x7, The chatbot actively engages site visitors and automatically captures their information while qualifying them based on your pre-set criteria. This helps your sales team focus only on high-intent leads.

AI-Driven, Human-Like Conversations

Powered by advanced Generative AI, the chatbot goes beyond scripted flows. It understands natural language and responds with intelligence, maintaining context across interactions — in **multiple languages** — to serve a global audience.

Seamless CRM & Tool Integration

Effortlessly integrate the chatbot with your existing CRM systems and tools. Automatically sync leads and conversations into your workflow with minimal configuration.

One-Time Setup – No License or Subscription Fees

Unlike SaaS chatbots with recurring charges, this AI chatbot is deployed directly into **your own AWS environment**, with **no ongoing costs**. You retain full control over the infrastructure and data.

Security & Compliance Built-In

- **Jailbreak-resistant design**: Prevents prompt injection, misuse, and inappropriate content.

- **Profanity and spam filtering**: Guardrails ensure professional and safe interactions.

- **Geo-fencing capability**: Configure which countries or regions the chatbot can respond to.

- **Anti-spider protection**: Stops crawlers and bots from triggering the AI.

How It Works:

1. **Deployed in Your AWS Account**
   All components – AI models, integrations, and data pipelines – are hosted within your AWS infrastructure for maximum control and data privacy.

2. **Custom Trained on Your Business**
   Feed the chatbot your company documents, product brochures, FAQs, and more. It learns your offerings and engages like a knowledgeable sales associate.

3. **Lightweight Frontend Widget**
   Easily embed the chatbot on your website with a lightweight, responsive widget styled to match your brand.

Ideal For:

- B2B and SaaS companies

- E-commerce stores

- Real estate and finance firms

- Healthcare and legal services

- Any business looking to automate lead capture and boost conversion rates without ongoing costs
